

EXTREME CONDITIONS DEMAND EXTREME WEAPONS CARE PRODUCTS.

You can not always control the conditions you have to shoot in, but you can control how well your gun performs in those conditions with Slip 2000 Lubricant-Cleaner-Preservative.

Slip 2000 Weapons Lubricant (CLP)

Gun Lubricant

Don't let dust, moisture, cold weather or carbon buildup interfere with your guns ability to perform. Slip 2000 Gun Lubricant is formulated to provide maximum anti wear and will enhance performance in extreme conditions. Will not become sticky or tacky like petroleum based products. *Does not contain Teflon.*

Slip 2000 Gun Lubricant is a pure synthetic blend of the highest quality, so it does not attract dust, dirt or sand like petroleum based products. Even in extremely dusty

conditions our gun will function properly. It is excellent at displacing moisture. This will help prevent corrosion in wet or humid conditions. SLIP2000™ Lubricant and its unique formulation penetrate into the smallest, tightest areas that oils do not go. This allows it to replenish the lubricant that has been lost during operation and provides a long lasting protective coating that reduces friction to a minimum and almost stops metal to metal wear. SLIP2000™ Lubricant forms a barrier that will then protect all parts and will allow them to work smoother and last longer.

**Slip 2000 Gun Lubricant exceeds the current New MIL-PRF 63460E
Non-Hazardous and Non-Toxic Environmentally Safe and User Friendly**

Carbon Killer Dissolves Carbon on Contact

Carbon Killer

The time consuming and labor intensive chore of cleaning your pistols, automatic and semi-automatic weapons is a thing of the past with Carbon Killer. SLIP 2000's™ Carbon Killer was designed with your health and safety in mind. Unlike other products, this product is non-flammable, non-hazardous and it is biodegradable. Carbon Killer provides you with a safe effective way to clean carbon, lead and plastic wad fouling

May be used in chambers and barrels as a bore cleaner. Apply to cylinder faces, bolt faces and any other hard to clean areas and allow to soak for 2 to 10 minutes. Carbon, lead, copper, plastic and burnt powder will wipe clean with a rag or nylon brush. Next cleaning will be much easier with SLIP 2000™ Gun Lubricant (CLP). Users will actually be able to wipe carbon and plastic wad fouling away with little to no effort.

Non-Hazardous and Non-Toxic Environmentally Safe and User Friendly

725 Gun Cleaner / Degreaser

725 Gun Cleaner / Degreaser

725 Gun Cleaner should truly be called "Super Degreaser" judging from the way it out-performs competitive products. This cleaner will cut through the toughest cosmoline, carbon, grease and grime! Its super strength allows it to de-gum and de-gunk the dirtiest of gun parts when sprayed on or used in parts washers or solvent tanks

In just a few minutes, this material will strip tenacious carbon stains and simultaneously, crack open and crumble heavily encrusted deposits of carbon, grease, grime, gum and gunk on aluminum, magnesium, stainless steel and other metal gun parts. Included are trigger assemblies, bolts, actions, slide rails, gas pistons and all other components. Works exceptionally well on 240/249 SAW - M16 - AR15 – 9mm – 37/40mm, Rocket Pods and Mortar Launchers and all other fully automatic weapons.

725 Gun Cleaner is a biodegradable, non-solvent non-flammable water based product. This product contains quality surfactants, wetting agents, emulsifiers, cleaners and rust inhibitors. Rinses freely and is compatible with most oil water separators

725 Can Be Used In
Foaming Brush Applicator

725 Can Be Used In
Ultrasonic Cleaning Systems

Non-Hazardous and Non-Toxic Environmentally Safe and User Friendly
